+91 8349877758 • vineetdwivedi409@gmail.com • Rewa, Madhya Pradesh • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Frontend React developer with hands-on experience building production-style web applications using React.js, JavaScript (ES6+), and Tailwind CSS. Strong in component architecture, Context API, protected routing, and responsive UI design; actively seeking a Frontend Intern role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, TypeScript

Frontend: React.js, Tailwind CSS, Responsive Design, Mobile-First Development

State Management: Context API, React Hooks (useState, useEffect, useContext, useReducer)

Tools & Workflow: Git, GitHub, VS Code, NPM, Chrome DevTools, RESTful APIs, Axios, Vercel, Netlify

PROJECTS

JobSphere – Job Discovery Dashboard

[GitHub](#) | [Live](#)

- Built production-ready job search platform with React.js featuring complete user authentication and protected routes
- Implemented global state management using Context API for user sessions, job listings, and application tracking
- Designed responsive UI with Tailwind CSS featuring dark/light theme toggle optimized for all devices

User Explorer Dashboard

[GitHub](#) | [Live](#)

- Developed interactive user management dashboard with component-driven architecture and reusable components
- Integrated RESTful API with error handling and loading states for enhanced user experience
- Created advanced theme management system with localStorage persistence across sessions

Daily Planner Application

[GitHub](#) | [Live](#)

- Created productivity app with vanilla JavaScript featuring Pomodoro timer, water intake tracking, and task management
- Implemented localStorage for data persistence and designed responsive interface with HTML5 and CSS3

EXPERIENCE

Open Source Development & Personal Projects

November 2025 – Present

- Engineered 3+ production-grade React applications with focus on clean code architecture and scalability
- Mastered modern React patterns including custom hooks, Context API, and React Router for SPAs
- Deployed applications to Vercel and Netlify with CI/CD ensuring zero-downtime deployments

EDUCATION

Bachelor of Technology in Computer Science

Expected: May 2026

Jawaharlal Nehru College of Technology, Madhya Pradesh | 8th Semester (Ongoing)

Relevant Coursework: Data Structures & Algorithms, OOP, Computer Networks, Software Engineering

Web Development Cohort 2.0 - Sheriyans Coding School

Ongoing

Intensive program focused on React.js, modern JavaScript, and production-level frontend development
